VI. ACTION ITEMS

a. Discussion and Possible Action Regarding a Policy and Procedure to Recruit New Class A (Designating Agencies) and Class B Representation on SAWA's Board of Directors

Mr. Powers inform the Board that this is the draft policy that stems back to 2018 when the majority of the Board requested to have a policy and procedures put in place when considering and vetting potential new Class A and/or Class B Directors for SAWA. Mr. Powers stated that the policy does nothing to change the SAWA bylaws or the SAWA articles of incorporation. This policy is a result of several meetings and input received from the Board as well as the Admin Committee. The draft policy that is before the Board is to provide guidelines or assistance to the Board if the Board ever wants to consider adding a Category A or Category B Director.

Mr. Mills spoke with SJBRCD Board in regards to the policy and he reported that SJBRCD still has considerable questions and finds a few things in the policy to be inappropriate. For one, where the policy says "identification of potential designating agencies" it says that the Executive Director can initiate that, SJBRCD Board do not feel that it is appropriate for staff to be trying to bring on board members. Another issue Mr. Mills wanted to bring to attention was that when it came to a Category B membership in the draft policy, there were many details on how to identify a potential Class B candidate, but he did not see it for Category A members in the policy. Lastly, Mr. Mills said the policy states that Category A has to be a designated agency because of the way the bylaws are written, but it also states that Category B can only be an individual. Mr. Mills asks for clarification as to why a Category B could not be an agency as well. Mr. Mills also wanted clarification on why the policy needed to state how to vote, if it is already in the bylaws.

Mr. Powers responded in regards to Mr. Mills' first point about the Executive Director having the ability to bring potential candidates to the Board stating this policy is subject to the Board's approval with or without modifications. If the Board wants to modify portions of this policy, they can do that. Mr. Powers stated that the Board just need a motion and a majority vote with direction to staff and himself with modifications the Board would like to see. Mr. Powers addressed Mr. Mills' comment about the guidelines for Class B's vs. Class A's. Mr. Powers stated that if the Board would like the same criteria for considering Class A directors as it states for Class B, then it is something that can easily be carried over with a motion and majority vote from the Board. The draft presented is not set in stone and can be modified with majority vote. Lastly, Mr. Powers answered Mr. Mills question stating that, yes, Class B's can be organizations, entities and not just individuals. The bylaws do not limit Class B to be just Directors and not designated agencies. Class B directors could be either a person representing on behalf of an agency or the SAWA Board could vote to add a Category B designated agency with a director. The difference with Category B, is that the SAWA board elects the director for the Category B agency whereas with the Category A's the respective designated agencies appoint their own representative to the SAWA board.

Mr. Russell asked if the voting procedure is already in the bylaws, why does it need to be included in the policy. Mr. Russell believes you could remove that and have the policy strictly be the recruitment and procedures be the policy.

Mr. Powers explained that yes, the bylaws provide the procedure. The bylaws are purely procedural as to how the SAWA Board goes about adding new Category A or Category B directors and agencies.

The policy stemmed from a Board discussion in 2018 where the majority of the board expressed a desire to have some guidance, not just procedure, as to what should be considered if/when the SAWA board ever wants to bring on a Category A and Category B. There was a discussion and a desire to have parameters and guidance as to the criteria that should be considered by Board members when a new Category A or B should be considered since the bylaws do not provide that guidance and just procedures.

Mr. Russell stated that he believes that they should be two separate things. It should be the Board recruitment policy and procedure to be one and the voting procedure should be another. After Mr. Powers' explanation, Mr. Russell stated that he believed there to be confusion in the wording. Mr. Powers responded that he could change the wording for clarification. Mr. Russell also wanted to address the actual recruitment procedure where it states the recognition of SAWA's forward looking corporate goals. Mr. Russell believes that belongs in the long-range objectives or strategic plan, which has not been updated. Mr. Russell thinks the long range objectives should be updated.

Chairperson Neugebauer stated in response to Mr. Russell that this organization has grown dramatically in the last two to three years. This policy is about growing this organization and it is in the best interest of SAWA to do so. Director Neugebauer called for a vote and asked if there is motion to approve.

Director Zembal moved to approve the Policy and Procedure to Recruit New Class A Designating Agencies and Class B Representation on SAWA's Board of Directors with clarifications requested by Director Mill and Director Russell. Director Parkes seconded and the motion passed 3-2
